CEO. S. MCKENZIE, Manager

"I Roughed It"

Many of us have to work hard all day long. We cannot care for ourselves as we would. No wonder our blood gets out of order, becomes thin and impure. This produces boils, eruptions, nervousness, indigestion, and great weakness.

We have this photograph and letter from Mr. John H. Ayer, of Wagon, Wagon, New South Wales, read carefully what he says: "I have roughed it a great deal, mining, working in storms, exposed to the heat, and have often had poor food. My blood frequently becomes impure and I have eruptions, boils, and become generally run down. But Ayer's Sarsaparilla makes me feel better every time, makes my blood pure and builds me right up."

AYER'S Sarsaparilla

There are many imitations of "Sarsaparilla."

Be sure you get Ayer's.

Take Ayer's Pills with the Sarsaparilla. They aid in purifying the blood, and they cure constipation and biliousness.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

ASHFORD RETURNED.

Talks of Hawaii's Future Growth and Prosperity.

Hon. Clarence W. Ashford, who was banished from these Islands seven years ago by the Provisional Government, has returned to his old stamping ground at Honolulu. In an interview in a Honolulu paper he says:

"Upon the Coast I heard what hard times there were in Hawaii," said Mr. Ashford, and this information came mainly from Honolulu. Since I have been back in Honolulu some people have endeavored to tell me why the times were hard, but from all that I have seen and heard it seems to me that, with the natural fertility and wonderful productiveness of the soil, without considering other elements, these Islands are not now in a bad way and are going to forge ahead commercially. The degree of prosperity may be, and will be measured, more or less, by the expense of producing our great staple. That practically is the whole thing in a nutshell. Sugar is a common need and we can produce plenty of it here.

"When I was in politics here years ago it seemed to me there should be something in the islands besides a big sugar field, but I don't think so now. There has been a great deal of talk about small farmers. Very good in its way, but it would take a mighty lot of them to throw into the scale against one plantation in a commercial sense.

"Still, diversified products ought to be fostered as much as possible, in order to produce on our soil here what we need for our own consumption, more especially in the way of food stuffs. But, with regard to the great staple and the cost of production, the plantations have been pinched between the upper and nether stones in this way: The price for labor has gone up, the price of the product has gone down, and if this keeps on there will be nothing in either, but I don't believe this will be the case. The cost of production depends very largely upon the price of unskilled labor—probably more than anything else.

Whooping Cough.

A woman who has had experience with this disease, tells how to prevent any dangerous consequences from it. She says: Our three children took whooping cough last summer, our baby boy being only three months old, and owing to our giving them Chamberlain's Cough Remedy, they lost none of their plumpness and came out in much better health than other children whose parents did not use this remedy. Our oldest little girl would call lustily for cough syrup between whoops.—JESSIE PINKNEY HALL, Springfield, Ala., U. S. A. This remedy is for sale by the Hilo Drug Co.

HIL0 HORSES AT HONOLULU.

McKenzie String at the Capitol for Kamehameha Day.

Bob Burns brought down with him from Hilo the best stable of runners that has ever gone out of the Rainy City. He is now comfortably settled with his equine charges in the Douglass place Leahi of the track and where he got 'em in shape for the starter last season.

In his string are Nullah, General Cronje, Time Center, Socialist and Del Vista.

Nullah is the "hot" pony which defeated Molly Connors at Hilo last January in a half-mile race. She is a racy looking bay mare, by imp. Aintree, and stands about fourteen two. She has been raced on Chicago and California tracks.

Time Center is a bay gelding by George Kinney, out of Green Witch by Longfellow. He has only started once in his life, at Hilo last January, on which occasion he failed to earn brackets.

Socialist, by St. Carlo-Anarchy, is well known here. He was brought from San Francisco a year ago to stack up against Weller, but went wrong and did not start on the local track. He succumbed to Weller in a mile race at Hoolulu Park last January.

Del Vista, a big sorrel mare by imp. Del Mar, out of playful, won one race at the Coast, running five and a half furlongs at Oakland in 1:10 3/4. She has been raced at Hilo and has shown herself to be a consistent performer.

General Cronje, by imp. Marten-hurst-Songstress, is the big bay gelding which defeated Aggravation in a mile race run at Kapiolani Park last June. So well did his connections think of him that he that he was all but entered in this year's Burns handicap. His feet have grown out and his ringbones entirely disappeared, thanks to the clever treatment of Trainer Burns, who does all his own doctoring.

All the above horses are controlled by G. S. McKenzie, and with them he should win many purses.

Royal Fan, one of G. S. McKenzie's stable, is in foal to Taranta, a son of imp. St. Bisie, out of a mare by Tarantula, by imp. Great Tom. Hilo horsemen are talking of organizing a jockey club and purchasing the Hoolulu Park track.

Mrs. McKinley's Pension.

Washington, April 12.—The House today passed the bill granting a pension to the widow of President McKinley of \$5000 a year. It had previously passed the Senate and now goes to the President for signature. Although favorable action on the measure was unanimous, an inquiry by Bell of Colorado as to the precedents for such action led to an animated discussion. Bell contended that many widows of poor soldiers were without pensions and that Mrs. McKinley had independent means, making a pension unnecessary.

Grosvenor of Ohio severely criticized Bell's position. Richardson of Tennessee and several other Democratic members spoke for the bill as in the line of precedent, Kleberg of Texas, an ex-Confederate soldier, supporting it on the ground that President McKinley had wiped out the last vestige of sectionalism. The day was devoted to private pension bills, 177 being passed.

A Tribute to the Country Editor.

President Atkins, of the Illinois Press Association, believes in the country newspaper. He says: "I would rather publish a good country weekly paper, enjoying its privileges, its part in the affairs of the community, the government and the state, than to own a Standard Oil Company. I prefer to engage in some kind of business that has something higher than the dollar side, a business that bears some relation to humanity and society. If I were asked today, what is the greatest safeguard in time of national danger, threatened lawlessness, or anarchy, I would say it is the clean, unpurchasable country newspaper of the land."—Barrington (Ill.) Record.

SILKWORM LOOMS UP.

Experiments Show That There Are Possibilities.

Experiments with silk worms made by Miss Kate Atherton at Honolulu has awakened a great degree of interest in silk culture as a possible industry in the Hawaiian Islands. A company of men were lately invited to the grounds at the Atherton home to see the weaving process. They were elated over the possibilities made manifest. The Evening Bulletin account of the matter closes as follows:

Editor H. M. Whitney will be requested to invite the attention of planters through their monthly magazine to the subject of silk culture as a subsidiary industry on sugar plantations. C. M. Cooke is enthusiastic on the subject since observing the result of experimenting. He says there are odd corners and pockets of land on the plantations where the mulberry would flourish and, as Mr. Atherton says, expert labor is to be found among the Japanese. Many of them have come from the silk raising districts of Japan.

There was an agitation here fifteen or sixteen years ago on behalf of silk cultivation. Mulberry shrubs were not rare in Honolulu then. Robert Lishman exhibited some fine cocoons of his own raising and other people engaged in experiments. It has probably been more on account of lack of skill in details of the culture and preparation for market than anything unfavorable in natural circumstances that no local silk industry has been developed in these Islands.

Election Notice.

At the annual meeting of the Waipio Limalau, Limited, held this day the following Officers were elected for the ensuing years:

HENRY HALL.....President
W. N. PURDY.....Vice-President
C. WILLIAMS, Sec. & Treasurer
